

Adam Murby

For the past twelve months illusionist Adam Murby has been busy creating and developing new and exciting material for his new illusion show. More recently the show has been taking itself half way across the world to Europe where many audiences were thrilled & amazed.

Adam's initial inspiration came about after watching a very famous illusionist on TV when he was only 10 years old. Adam saw things which were both visually and emotionally amazing, which immediately inspired him to try to do something equally as

great when he gets older. The seed was planted..

So at 10 years old he began studying the art of deception at the local library, reading everything he possibly could to try to improve or learn something new.

Three years of practice and performing went 'flying' past and "puff!" for some reason he stopped, literally overnight! Everything he had collected got put away into a box and got stored in the attic and got forgotten about for 8-10 months.

Then come Christmas time, a performance video tape of an international illusionist from Sweden was given to him as a present, having watched it, he once again got that same inspiration he got when he was 10 years old, the only difference now is that he's been 'bitten by the bug' and has been hooked ever since.

Adam is available in both main stage illusion and close up magic.
