

Urban Soul

Urban Soul is a cover band that blends together a perfect mix of soul, funk, jazz and pop styles to create a high energy good time atmosphere that is guaranteed to 'Get the party started' and keep it going 'All night long'.

This eclectic group has at it's nucleus some of the country's most respected and talented musicians, who treat each gig like one more chance to play their grooves and one more step on their musical journey.

Urban Soul was formed in July 2009. It was inspired by the Stevie Wonder concert in October 2008, which all members attended separately. Lead Vocalist, percussionist Trevor Davy won the chance on 94.5 fm to sing with Stevie and was so inspired by the experience he set about finding the players that would make the experience last for the long term. After a number of possible line ups being auditioned, the ultimate chemistry was discovered and the band has not looked back.
