

## The Hit Squad

The Hit Squad are a pop / rock duo performing a wide variety of dance hits from the 60s through to the present day.

Most duos today use downloaded midi files or mp3 files as backing tracks, but Davis creates each backing track by hand himself in his home studio. The key and tempo of each classic hit is matched against the original. Davis then recreates each instrument and sound, including backing vocals, as close as possible to the original, leaving only the lead vocal and guitar parts to be performed live. The result is an in-

credibly authentic sound to each track.

The repertoire is aimed directly at the 20 to 50 demographic with most songs chosen for their danceability. Creating the backing tracks from start also means that the duo can perform songs that an average duo could not recreate. Cold As Ice by Foreigner and Sweet Child 'o' Mine by Guns & Roses are good examples.

Farida has an amazing voice with all the attributes of a great singer, range, pitch control, power and stamina. Davis is a veteran of live performance, studio engineering and production, and is a skilled multi-instrumentalist.

The Hit Squad are perfect for weddings, corporate functions and private events. For more information on The Hit Squad music duo along with more duos, cover bands, musicians and entertainers contact Perth Professional Entertainment Services on **0893821894**.
