

## Kevin Rudd

Its another day in Canberra and Prime Minister Kevin Rudd wants the nation to know that he's got this economic crisis thing under control.

" Well its very serious indeed that is why we've released another massive stimulus package, yes Kevin Rudds massive stimulus package.. need i say more. Of course we had a stimulus package earlier on too as you may remember, and this included \$1400 for pensioner couples, \$1000 for full time carers, \$1000 for certain people below a certain income, there is also an extra \$7000 for the first home buyers grant and and

extra \$7000 on top of that if it was for a new home. So basically if your a pensioner who's a full time carer, you've got a couple of kids and your building a brand new home.. your rolling in it".
